

Making this summer more affordable for families across the country

The conflict in the Middle East has pushed up the cost of energy, fuel, and everyday goods for families across the UK. Rising costs at the fuel pumps and the tills are putting pressure on families across the country, with many opting not to travel this summer. The little joys in life matter, a family holiday, a meal out, or a day trip making memories with your kids.

The government is here to help. These measures won't undo that pressure, but they're designed to make the summer of 2026 a little easier and to help families, so they don't feel squeezed this summer.

Savings include VAT reduction on children's restaurant meals, free bus travel for age 5 – 15-year-olds on local bus services in August.
